

MNPS's

Cigna Medicare Advantage HMO

with Medicare Part D Prescription Drug Coverage

This brochure contains highlights of the Cigna Medicare Advantage HMO (MAPD-HMO). The official plan name is Cigna Preferred Medicare (HMO); this is the plan name that appears on your Cigna ID card.

This is a closed plan, which means if you're currently enrolled in it, you may remain enrolled in it as long as it's offered, but new enrollees are no longer being accepted.

Cigna Medicare Advantage HMO

with Medicare Part D Prescription Drug Coverage

This chart is only a summary. Certain rules and limitations apply. See the benefit summary for more detail.

The Cigna Medicare Advantage* HMO (MAPD-HMO) covers everything Original Medicare (Parts A and B) covers, plus many extras, including Part D prescription drugs. The official plan name is Cigna Preferred Medicare (HMO); this name appears on your Cigna ID card. (This is a closed plan; no new enrollments will be accepted.)

How the plan works

There are no plan deductibles. You simply pay an affordable copay or coinsurance amount for covered services. This enhanced level of coverage helps keep your out-of-pocket costs low and is possible because all your care is provided through Cigna's Medicare Advantage network. There are no benefits for out-of-network care, except in an emergency. In these cases, you should seek care at the nearest emergency facility and your care will be covered at the in-network level, as shown in the chart.

Choosing a provider

Enrollees must choose a primary care physician (PCP) from Cigna's network of contracted doctors. Referrals are not required for specialist office visits. For the most current list of Cigna network providers, or to choose a PCP, visit [CignaMedicare.com/group/MResources](https://www.cignamedicare.com/group/MResources). Or call Customer Service at 1-888-281-7867 (TTY 711).

ID cards

The Cigna MAPD-HMO has only one ID card for both medical and prescription coverage. Current enrollees will continue to use their current ID card in 2023; no new cards will be mailed.

* Medicare Advantage plans are health plans approved by Medicare and provided by private companies like Cigna. Medicare sets the rules for these plans and regulates the private companies that operate them.

MAPD-HMO plan benefits ... at a glance

Prescription drugs

with Medicare Part D Prescription Drug Coverage

The Cigna MAPD-HMO includes Medicare Part D prescription drug coverage. Therefore, MNPS retirees in this plan do not need to enroll in an independent Medicare Part D plan; doing so would result in the cancellation of your MNPS coverage.

Benefits for covered prescription drugs are based on a drug list, called a formulary. You can view the drug list and see how your current medications are covered by creating and/or logging onto [myCigna.com](https://mycigna.com) (see back page).

Finding network pharmacies

To locate network pharmacies, visit CignaMedicare.com/group/MAresources.

¹ Although some Medicare prescription drug plans do not provide coverage during the coverage gap, also known as the donut hole, the Cigna Medicare Advantage HMO does, so there is no gap in coverage.

² Specialty drugs are limited to a 30-day supply per fill.

³ Prescriptions purchased out-of-network are paid at the in-network level, but you're responsible for any difference between the out-of-network pharmacy billed charge and the actual in-network allowable amount. Limited to 30-day supply.

Prescription drug benefits ... at a glance

During Initial Coverage and Coverage Gap¹
(until you have spent \$4,660-\$7,400 in true out-of-pocket Rx costs)
